Name or trademark		Midea
Model		MPPXA-12CRN7-QB6
Sound power level at standard rating conditions	[dB(A)]	64
Refrigerant type		R290
GWP		3
EER		2,6
Energy efficiency class in cooling		A
COP		N.A.
Energy efficiency class in heating		N.A.
Cooling capacity P _{rated}	kW	3,5
Heating capacity P _{rated}	kW	N.A.
Refrigerant leakage contributes to climate change. Refrigerant with lower global warming potential (GWP) would contribute less to global warming than a refrigerant with higher GWP, if leaked to the atmosphere. This appliance contains a refrigerant fluid with a GWP equal to [3]. This means that if 1kg of this refrigerant fluid would be leaked to the atmosphere, the impact on global warming would be [3] times higher than 1kg of CO ₂ , over a period of 100 years. Never try to interfere with the refrigerant circuit yourself or disassemble the product yourself and always ask a professional.		
Energy consumption [1,4] kWh per 60 minutes in cooling mode, [N.A.] kWh per 60 minutes in heating mode, based on standard test results. Actual energy consumption will depend on how the appliance is used and where it is located.
